The victim reports that they left their residence at 5:30pm and returned home at 8:00pm to find a lock on their front door had been tampered with. While checking their home they noticed several dresser drawers had been opened and multiple personal items were removed and scattered around the bedroom. In addition, a jewelry box had been gone through and multiple pieces of jewelry and money were taken. A basement window was discovered open, which is where the suspect entered. At this time this case remains open to further the investigation.

On December 9, 2016, at approximately 7:20pm, Deputy A. Curtin was called to Field Road, in Lusby, for the report of damage to a vehicle. The victim advised that between 6:00pm – 7:00pm a large rock was thrown at one of their vehicles parked at their home. The rock was approximately 10lbs and shattered the windshield. Several smaller rocks were also

thrown causing several scratches to the hood, trunk and the doors. The victim had been home at the time but did not hear the incident occur.

Destruction of Property Case #16-69188:

On December 6, 2016, Deputy R. Spalding was dispatched to Augustus Drive, in Prince Frederick, for the report of damage to two (2) vehicles. The victim advised that her car had been parked at her home since December 3rd until she drove it a short distance the morning of the 6th. She could tell something was wrong because of the way it was handling. When she returned home later that day, she noticed a white substance around the gas tank and could tell something had been put in the tank. She advised she then checked the gas gauge, which indicated there was more gas in the tank than when she parked the car the previous night. A second vehicle, also parked at the home and driven on December 6th, was discovered to have had the brake line cut. There is no suspect information at this time.

Theft Case #16-69577:

On December 8, 2016, Deputy R. Evans was dispatched to the home of a victim who had been involved in a vehicle accident earlier in the day at the intersection of Mill Bridge/Coster Road, in Lusby. The victim explained that she was assisted by three (3) black males who tried to help her in case she was in need of medical attention. She informed Deputy Evans she had recovered her phone and jacket from the good Samaritans before the ambulance arrived but did not get her purse back. Her black coach purse, black wallet and money were missing.

Theft Case #16-69356:

On December 7, 2016, Deputy N. Buckler responded to Terrace Drive, in Prince Frederick, for the report of a theft from vehicle. The complainant explained that his truck was last seen intact on December 6th, at approximately 9:20pm; when he went to remove his hunting shotguns around 5:00pm that next day, he noticed a passenger door window had been smashed out. He entered his truck and discovered two (2) Mossberg 500 12 gauge shotguns, two ammunition cans, a SOG camo backpack, Steiner binoculars, Bushnell rangefinder & various other hunting gear were all missing. A neighbor reported finding a large dark object lying in the grass next to their driveway, which turned out to be one of the missing guns and a case. Upon Deputy Buckler's investigation, he found the second missing gun case in the nearby woods. The victim was able to confirm both guns and gun cases belonged to him. Two (2) ammunition cases were also found nearby but the camouflage backpack is still unaccounted for.

Theft Case #16-69331:

On December 7, 2016, Deputy R. Evans responded to the Sheriff's Office to speak with a victim wanting to report a theft that took place at the Dunn Clean Laundromat. The victim stated on December 2nd, at approximately 10:15am,

they had left several articles of clothing in the washing machine and stepped out to walk to a nearby Restaurant while waiting. Upon returning to the Laundromat she noticed the clothes were missing. She assumed someone had inadvertently taken her clothes instead of their own, so she left a note on the washing machine to contact her once they discovered the error. She has not been contacted at this time. This case remains open for further investigation.

Theft Case #16-69237:

On December 7, 2016, Deputy A. Woodford responded to Cassell Boulevard, in Prince Frederick, for the report of a vehicle tampering. The victim explained they were woken by the sound of their dog barking around 4:20am. When they entered their vehicle later that morning, they discovered a passenger window had been shattered by a large object. The hole was large enough for someone to stick their arm through, which is how a small book was stolen from the back seat. The book was kept in a pink leather case and could have been mistaken for a wallet. Upon Deputy Woodford's neighborhood canvas, he was able to locate the pink case laying in the medium near the victim's driveway. The book was returned to the victim.
